## COP 21 Third Quarter Results (April - June 2022)

During the third quarter of Fiscal Year 2022 (April - June 2022), PEPFAR Mozambique contributed to the HIV testing of 2,430,699 people, corresponding to 146% of the quarterly target, and cumulatively reached 104% of the annual testing target (6,943,100 from 6,670,380). Compared to the previous quarter (January - March 2022), there was an increase of 129,500 people tested.

Regarding the treatment of people living with HIV, with the support of PEPFAR, during the third quarter of COP21 (April - June 2022), the national program grew by 4.1% over the previous quarter. PEPFAR Mozambique concluded the quarter with 1,801,252 patients on treatment, of which 93,326 were children and 1,707,922 adults. There was a 2.8% increase in the number of children on ART compared to the previous quarter. Viral suppression in the reporting period remained stable at 93%, the same as the previous quarter.

### PEPFAR's Contribution to the Control of the Epidemic in Mozambique

Even with the challenges imposed by COVID-19, PEPFAR has managed to contribute significantly to the response to HIV/AIDS in Mozambique. These are some of the indicators that measure the efforts made for HIV prevention and treatment between January and March 2022.

#### PREVENÇÃO

Number of HIV tests done during the quarter

**2,430,699**

Number of men circumcised during the quarter

**48,570**

Number of people who received a positive HIV test result during the quarter

**84,525**

Number of people who received oral pre-exposure prophylaxis (PrEP) to prevent HIV during the quarter

**23,751**

#### TRATAMENTO

Number of pregnant women who received treatment to prevent mother-to-child transmission of HIV during the trimester

**22,894**

Cumulative number of people living with HIV who are on antiretroviral treatment by the end of the quarter

**1,727,738**

Total number of people living with HIV who started antiretroviral treatment during the quarter

**73,514**

% Of patients on antiretroviral treatment who received viral load test with result suppressed during the quarter

**93%**

In Mozambique, PEPFAR implementation is coordinated by a U.S. government team comprised of the Department of State, United State Agency for International Development (USAID), Centers for Disease Control and Prevention (CDC), Department of Defense, and Peace Corps.
